

## THE OTHERS: PLASTIC TOKEN PACK

*The Others* is a game that is going to immerse players into the world of the coming apocalypse. Its richly detailed theme draws them in and doesn't let go. To enhance the beautiful, dark art and incredible miniatures, players can now add the Plastic Token Pack. This set has 88 plastic tokens, all with color printing and 3D embossing. Every single cardboard token in the game is replaced with this pack, so it really decks out the game. If players are going to face the apocalypse, they might as well do it in style..

\*This is an expansion. *The Others* core box is required to play.
