ART PENDING LICENSOR APPROVAL

You want to know more about **Rick and Morty: The Rickshank Rickdemption Deck-Building Game**? We can tell you everything you want to know ... **for money**. Nah bro, this is the sequel to *Rick and Morty: Close Rick-Counters of the Rick Kind Deck-Building Game*. We know the blemflarck just tanked, so we won't even force you to buy the original to play this game. You can play this one standalone or mix the two together for a concoction almost as tasty as the Szechuan Sauce card you'll find in this set. You know who really digs the Sauce? Gromflomites. They are a new card type in the set.

This new game also features a set of Council cards that will cause voting among the players to enact new rules, dramatic one-time effects, and other mysterious situations. Access Tokens give you votes (and a shot at devaluing the Galactic Federation currency from 1 to 0), so get them before they're all gone! And if they're gone, scratch and claw them away from your foes!
