Fascinating Cards, LLC was founded in 2020 by Eric Paulson in Fargo, North Dakota to produce non-sports trading cards. We released our first set of cards in September 2020, featuring the 116th United States Congress. There were 535 base cards (100 Senators and 435 Representatives) and a parallel set featuring 535 one-of-one numbered cards.

These cards have been used in lessons in Social Studies classes across the United States and have been used internationally to teach non-citizens about the U.S. government. They are popular among collectors and have also been sold in retail stores in Canada, the United Kingdom, and Germany.
