

# FUNKOVERSE™

## STRATEGY GAME

### Pop! Funkoverse: Back to the Future #100

In the Funkoverse Strategy Game, you combine your favorite characters and go head-to-head in exciting game scenarios.

Each turn, you select one of your characters and perform two actions. Each character has access to basic actions like moving and challenges as well as several unique abilities that may be performed only by spending ability tokens. Funkoverse uses an innovative “cooldown” system—the more powerful the ability, the longer it will take for the ability token to become available again—so players have to spend their ability tokens wisely. Each character in Funkoverse is unique, so players are encouraged to try out different combinations of characters and items in order to discover their favorite synergies and powerful strategies for the different game scenarios.

### Interesting Gameplay Features

- Two exclusive Funko Pop! figures found only in this game
- Unique playable characters, including Marty McFly and Doc Brown from the *Back to the Future* movie franchise
- Marty McFly is a versatile character who can run quickly, grab point markers, and move things down his cooldown track
- Doc Brown has a unique cooldown track that allows him to reverse time—enabling him to return tokens and markers to his play area faster
- Hoverboard Item gives you extra mobility and style points
- Combine this with other Funkoverse Strategy Games for the ultimate battle of epic proportions
