## PARTY GAME

### Similarity Party Game

Similarity is a cooperative party game where players delightfully discover just how much they have in common with each other! Each round, a prompt card is read aloud to the group. Prompts might say, *"Best to Worst Sandwich Ingredient."* Players secretly write answers to the prompt on their placards. Players may write down things like *potato chips, chocolate sauce, or a slice of 100 year old cheese*. Once all players have written and revealed their answers, each player ranks the answers in secret. Now, all players reveal their rankings. But there's a twist! Each round, players can go for bonus points by ranking their answers in an unexpected way. The more similar your rankings with other members of the group, the more you all score!
