

FUNKOVERSE™

GAME EXPANSION

Pop! Funkoverse: Darkwing Duck #100

In the Funkoverse Strategy Game, you combine your favorite characters and go head-to-head in exciting game scenarios.

Each turn, you select one of your characters and perform two actions. Each character has access to basic actions like moving and challenges as well as several unique abilities that may be performed only by spending ability tokens. Funkoverse uses an innovative “cooldown” system—the more powerful the ability, the longer it will take for the ability token to become available again—so players have to spend their ability tokens wisely. Each character in Funkoverse is unique, so players are encouraged to try out different combinations of characters and items in order to discover their favorite synergies and powerful strategies for the different game scenarios.

Interesting Gameplay Features

- One exclusive Darkwing Duck Funko Pop! figure found only in this game that is also a unique, playable character.
