After generations of turmoil, the four factions have finally put their differences aside to work together for a better tomorrow. As a commitment to this newfound alliance, the world's first airborne city, Skyward, is to be built right above the intersecting borders of the four realms.

Together at last, the factions formed a committee made up of cultural luminaries to help build the city. The committee self-selects a Warden each season to assist in dividing the work among its members. You play as one of the competing luminaries to help build the airborne city and to ultimately be named the Founder of Skyward.

Skyward is a competitive card drafting game for 2-4 player. Each round buildings and resources are provided for the city of Skyward and a Warden is appointed. As the Warden, you take the control of how resources are split into piles, but lose the ability to choose one of the piles you've split.
