

# Pictomania

Do you know what a zebra looks like? Can you draw it? ***No, well, then this game is perfect for you!*** Any zebra drawing you do will be fine as long as the other players don't think your zebra is... a car!

In **Pictomania**, it really doesn't matter if you can draw well. Each player will draw a picture of a word given to them and at the same time try to guess the drawings of the other players. You don't have time for a masterpiece - just a small doodle will suffice - and then you will have more time to guess!

The player who can doodle just a little bit while making good guesses at the other drawings will be the winner!

**Pictomania** is from Vlaada Chvátil, the designer of top rated games such as *Through The Ages*™, *Mage Knight*™, *Space Alert*™, *Galaxy Trucker*™, and *Dungeon Lords*™!
