CURRENCY TRADING CARD SET - SERIES THREE

Continuing to build on the legacy of its predecessors, Currency Series 3 offers collectors a trading card experience like no other. Fusing together the past and present, the ancient and the cutting-edge, Currency is the story of money and its effect on our everyday lives.

Series 3 introduces collectors to the concepts of Austrian economics, the rapid growth of artificial intelligence, and even what the world's first electric battery may have looked like. Of course, no Currency set would be complete without giving a nod to the key influencers, alternate investment vehicles, and the blockchains that are at the forefront of the modern economy.

Those with fortune on their side may uncover special rare variant cards, such as parallel holofoils, Meta-Rare Refractor™ and serial-numbered Gemstone Refractor™ cards. Look for randomly inserted Redemption cards that can be exchanged for various amounts of cryptocurrency like Bitcoin, Ethereum, Litecoin, and Dogecoin, including 1 BTC and 1 ETH hits.

As you search, see if you can find one of the One of Twenty-One Bitcoin cards or perhaps a Mega Box Exclusive Opal Gemstone Refractor™ cards!

So, what are you waiting for? Expand your Currency portfolio today!
